

# NCCOR FAST FACTS

The National Collaborative on Childhood Obesity Research (NCCOR) brings together four of the nation's leading research funders — the Centers for Disease Control and Prevention (CDC), National Institutes of Health (NIH), Robert Wood Johnson Foundation (RWJF), and U.S. Department of Agriculture (USDA). They work in tandem to manage projects and reach common goals, combine funding to make the most of available resources, and share insights and expertise to strengthen research.

NCCOR offers a wide range of research tools and communication products to advance childhood obesity research and practice. See below to learn more about how NCCOR's activities can help support your work.

## What does NCCOR do?

## How can NCCOR support your work?

Provides researchers with tools and resources

Search the Catalogue of Surveillance Systems ([www.nccor.org/css](http://www.nccor.org/css)) and the Measures Registry ([www.nccor.org/measures](http://www.nccor.org/measures)) to review, sort, and compare surveillance systems and measures relevant to childhood obesity research.

Determines research priorities and furthers emerging areas

View our projects ([nccor.org/projects](http://nccor.org/projects)) to see how we are supporting and furthering the impact of emerging fields like healthy food incentives and green health on childhood obesity.

Supports time-sensitive research by promoting new funding mechanisms

Visit [nccor.org/blog/funding-opportunities](http://nccor.org/blog/funding-opportunities) to find obesity-related funding opportunities including rapid response mechanisms that help investigators study policy and environmental changes in real time.

Translates and disseminates findings and resources

Access our reports, infographics, videos, and other resources ([nccor.org/resources/nccor](http://nccor.org/resources/nccor)) to see how we translate complex research findings into creative and engaging visual and written materials.

Communicates with researchers and practitioners

Connect with us on Twitter, LinkedIn, and through our blog ([nccor.org/blog](http://nccor.org/blog)) and sign up for our monthly NCCOR e-Newsletter ([www.nccor.org/e-newsletter](http://www.nccor.org/e-newsletter)) to get the latest childhood obesity events, news, and research.

Hosts webinars to connect research and practice communities

Watch our webinars ([nccor.org/resources/nccor/webinars](http://nccor.org/resources/nccor/webinars)) to connect to leaders in the field, learn more about recent childhood obesity research, and explore the priorities of national funders.
